## About Us

The year 2004 dawned upon the formal establishment of **RAJAB METAL PRODUCTS INDUSTRIES LLC** under the vastly experienced and enterprising Engineer Mr. Raj G. Ramdaur. It has become a leading, independent Sharjah based Industry specializing in the manufacture and installation of high performance aluminum glazing solutions including curtain walling, doors, windows and ground floor framing to create impressive yet functional facades. **RAJAB METAL PRODUCTS INDUSTRIES LLC** perception has always meant constant evolution in tandem with the upcoming technologies in the field of aluminum-glass architecture and it has earned its due recognition with the flooring of great projects in UAE. This called for high recommendation on the services provided with well-known consultants in the Middle East to proudly acclaim the quality and well worth of our service.

Our expertise Armed with decades of successful operation, the management and technical team modestly holds the expertise of well above 20 years in the field of aluminum-glass architecture and undoubtedly guarantees the best of quality in products and services. With exhaustive experience and dedicated performance in large scale projects, we provide architects with the resources they need to create high performance solutions, which are both visually exciting and eminently practical in glazing aluminum facade. The Company is committed to forging strong on-going customer relationships and harnessing leading-edge glazing technology. These priorities ensure that **RAJAB METAL PRODUCTS INDUSTRIES LLC** continue to deliver industry-leading products and services to UAE developers, contractors and architects. From complex, high performance glazing to simple ground floor framing, **Rajab Metal Products Industries LLC** offers the optimum systems solution for your project.

At **RAJAB METAL PRODUCTS INDUSTRIES LLC**, dedication and commitment to our values are complete. We believe that every client who comes in coalition with us returns, with more than an experience, but also with a smile.

# **Our Team And Mission**

**Our team is of 60 highly qualified and skilled professionals.**

Managing Partner & Projects In-charge has personally executed various projects successfully with reputed Products, contracting companies & consultants.

Our team has a comprehensive understanding and co-ordination all aspects of fabrication, installation of high quality Aluminium composite panel cladding, 4 – way structural glazing work, Curtain walling systems and Aluminium Doors & Windows and can communicate at all levels and execute the projects at given schedule.

## **Mission**

- Our Mission is to provide our clients with the highest service quality and on time delivery.
- We hold ourselves to the highest professional standards and ethical behavior whilst maintaining the highest level of professionalism, integrity and honesty with our clients.
- We pride ourselves on our quality workmanship and our highly dedicated and experienced staff.

**RAJAB METAL CONSTRUCTIONS INDUSTRIES LLC** has a fabrication & assembly workshop facility fully equipped with the most sophisticated machinery and tools, located on Cater Pillar Road in Industrial Area No 2. The company has a skilled and experienced workforce, fully conversant with all aspects of basic philosophy entails fabricating, finishing and installing architectural and functional metal works of the highest quality and aesthetic beauty, without compromise. All products manufactured are regularly monitored and with strict quality control procedure and thereby ensuring the best products.

System: Exterior-Aluminium Composite Panel Cladding / Curtain wall system  
Main Consultant: M/s. A.R.A ENGINEERING CONSULTANCY  
Main Contractor: M/s AL BUHAIRA CONTRACTING LLC  
Facade Contractor: M/s RAJAB METAL PRODUCTS INDUSTRIES LLC  
ACP Manufacture: M/s Eurocon Building Industries.  
House of Expertise: Profire Safety Consultants  
Project: PROPOSED 2B + G + M + 3 + R RESIDENTIAL & COMMERCIAL BUILDING  
Plot: 3439440  
Area: AL WASL, DUBAI, UAE.  
Consultant's Report: PSC-DXB-EFC-MY-3439440

Dubai Civil Defence have NO OBJECTION to the Proposed EXTERNAL CLADDING/CURTAIN WALL SYSTEM at the above project, which is stated the HOE to be compliant with the UAE Fire and Life Safety Code, based on the following:

- The building is considered as a high-rise building (25.20 meter from the ground level) and is fully automatic sprinklered.
- The **Alubond FR – A2 ACP** Cladding system manufactured by Eurocon Building Industries comply with 2017 UAE fire and Life Safety Code. **Production data, delivery notes, and certificates must be provided** on delivery to the project and forwarded to HOE, Building Authority (AHJ) and DCD for review during the final inspection. The main Consultant is directly responsible to ensure the paperwork is circulated and available for inspection during any time of the project. Factory production and fabrication inspections will be carried out jointly with the Building Authority (AHJ) and DCD.
- The proposed **Alubond FR – A2** cladding panels are approved by DCD, which has been tested as follows: **NFPA 285 "Pass"** as a system (Certificate Number – **TBW0300212**). **ASTM E 84 "Class A"** Classification for core and panel (Certificate Number – **TBW 0300154.1**). Achieves **A2, s1, d0** as per **EN 13501-01** (Certificate Number – **TBW 0300154.1**). passed ignition test of **500°C (3mm Thick Core)** and **480 °C (4mm Thick Panel)** as per **ASTM D1929**(Certificate Number – **TBW 0300154.1**), and the same is acceptable.
- The fire stopping fire barriers (vertical and horizontal) at slab edge or column intersects are proposed with **Lamatherm Fire Barriers CW FS 120** as per **Exova Certificate CF563**. **Lamatherm** is approved by DCD.
- Dubai Central Laboratory and Dubai Civil Defence approval for **Fujairah Insulation** and **Knauf Insulation**.
- The Proposed **28mm DGU** curtain wall system at the above said project is acceptable based on the following.
- The perimeter joint system is as per **CF-563** as per **Exova** certification of **EN 1364**.
- The fire stop system proposed is **Lamatherm CW FS 120**, which is certified by **Exova** (Reference: **CF563**). **Lamatherm Fire Stopping System** is approved by DCD.
- Façade system** to be fixed on the external face of base wall by the method accepted by the HOE/ Façade Consultant.
- Bitumen based vapour barriers** shall not be used. **Water based acrylic or cementitious vapor barrier** can be applied that should be approved by DCD/ Building Authority (AHJ).
- Flammable/ combustible backer rod** shall not be used.
- Joint sealants and gaskets** must be DCD listed and fire retardant.
- The Façade system cavity shall be no greater than the tested system (**NFPA285**).
- All the cladding panels, fire stop systems, perimeter joint systems, gaskets, sealants etc. shall be DCD approved materials and systems.
- Horizontal and Vertical fire barriers shall be installed. The Double Glazing should be registered with DCD.
- Perimeter fire stopping / Cavity barriers shall be provided at every slab and column intersects.
- Inspection of this ONGOING project shall be carried out by the HOUSE OF EXPERTISE and or Façade Engineer as per the attached declaration.

The acceptance of cladding is invalid without undertaking letters and the Main Consultants report. It is the responsibility of the main consultant, to monitor and ensure compliance with the above items and the UAE fire code. Please see attachments and drawings. The approval of the proposed façade system, specified products and materials is for this project only (Plot#3439440). This NOC is null and void under any circumstances of rework / renovation or change of product/materials or system of this project from above declaration.
